

Let's See What is Our Plastic Footprint?

This is what your office footprint might be for a staff of 20:

Polystyrene Lunch Boxes
100/week

Disposable Coffee Cups
400/month

Plastic Cutlery (if 2 pieces)
10,000 pieces/year

Leave the clean disposable items you use
in the designated bin between these dates

_____ and _____ .

Once we know what our footprint is,
we can take action to change it.
